ALBERTA'S CROP.

Crop bulletin No. 1 of the Alberta department of agriculture has been issued, and although complete returns are not available owing to the fact that deep snow prevents the threshing being completed in some districts, the statistics at hand give a very good indication of what the average yield of the province will be.

It should be borne in mind when studying crop bulletins issued by this department that the yields given are based upon threshers' measure, and not by weight, thus the actual yield is much heavier than that reported. For example: The standard weight of oats per bushel is 48 lbs. but those grown in Alberta average 40 to 48 lbs. per measured bushel; therefore the yield of oats if given by weight would be at least one-fifth to two-fifths greater, bringing the estimated average yield for 1907 up to fully 50 bushels per acre.

The following are the averages for the provinces of the various grains, based upon returns to date.

Average Yield per Acre, 1906. Oats .. 40.82
Bushels Barley .. 29.04
Spring Wheat .. 22.16 Flax .. 10.14
Winter Wheat .. 23.54 Speltz .. 27.91

The following table gives the average yields by districts:

Dis. No.	District.	Spring Winter			
		Wht.	Wht.	Oats	Brly.
1	Cardston	21.6	23.7	46.9	10.3
2	Clearwater, Fish Lake	22.3	13.3	39.2	25.8

14	Fort Saskatchewan, Leduc and Strathcona	24.5	30.0	40.9	31.7
15	St. Albert and Steep Plain	24.3		40.1	30.0
16	Bon Accord, Whitford and Victoria	24.5		40.3	31.4

Just as soon as the full returns have been received the regular Crop Bulletin will be issued giving full details by districts.

GEO. HARMOUR, Deputy Minister, Department of Agriculture, Edmonton, Alta.

A RISE IN CATTLE AND BEEF.

Winnipeg, April 8.—(Pat Burns, the Alberta cattle king, in Winnipeg interview Monday said:

"The cattle ranchers of the west will do well if they come through present winter with no more than an average loss of 10 per cent of their stock."

"That the price of beef will be affected there is not the slightest doubt. I anticipate not only a rise but a very marked rise in the price of cattle and beef before the season is far advanced."

The causes of this are perfectly natural, and are due to an increased demand and decreased supply. Even before the winter had started it was evident that there was a scarcity of cattle. The ranching districts of Alberta are in a state of transition, inasmuch as the large ranches are being broken up into smaller ones.

"Some years ago the territory between Calgary and Macleod was heavily grazed by thirty cattlemen while at the present time perhaps two thousand have ranches in this district. When twenty men owned 30,000 head, now a thousand have 30,000. Some have stocks of 100, 200 and upwards."

"The scarcity is evident not only in cattle, but in all live stock. Buyers are unable to obtain hogs

at 74 cents. A few years ago they could obtain all the supply desired at from 4 to 5 cents. Sheep are also practically unobtainable, unless imported."

A BLOCKADE IN IMMIGRATION

Minneapolis, Minn., April 9.—Twin City railroads handling the immigration movement towards Canada are up to the 4th Tuesday over a refusal on the part of the Canadian Northern to receive any further shipments of settlers' effects.

In explanation of this unusual order, the Canadian Northern points out the fact that it is just now in the midst of a traffic block.

The report given out at St. Paul is in effect that the blockade is so serious that the railroad company is supplying food for stock which is held up as well as providing sufficiently for immigrants who insist on remaining with cars which contain their goods. From 1,300 to 1,600 cars loaded with this kind of property are said to be tied up on the lines west of Emerson and St. Vincent. No great has been the rush of settlers northwards that the Canadian Northern officials assert that they find themselves absolutely unable to cope with the movement and admit their service is sadly demoralized. The Minneapolis railroad commission has been flooded with appeals for assistance.

C. F. Taylor had a hearty welcome from his neighbors in the Hazel Hill district on his return from Washington, where he had moved with his family just a year ago.
